

PARK CARE

Number 3 August 1991

Cooleman Ridge Group

Hi Everyone,

Not so many braved the weather for the last meeting but we got quite a lot of mapping done and were all pleasantly surprised at the wealth of plant life in the area.

At the next regular meeting (Sunday August 18th 1pm at the Kathner St. entrance). we will be cutting and dabbing as well as further mapping. Could people with the large maps please bring them with them so that we do not duplicate our work.

On Sunday August 11th the Group who tend the Pinnacle Reserve are officially opening their Nature Trail (2pm at the Springvale Drive entrance). Anyone who would like to go is very welcome. It should give us ideas for the future!

The "Great Tree Planting" is now scheduled for September 8th. I have not been able to obtain details yet.

Attached is a gridded map of the Ridge. I find it a help when I am out bird mapping. I have some laminated ones if anyone would like one.

I would be grateful for any bird and animal sightings. I get out once a week but do not cover all of the Ridge (The two ends get missed usually). With Spring just around the corner there should be nesting activities to monitor.

I have had several expressions of interest in meeting during the week. It seems that Tuesdays are most popular.

If anyone would like to do some mapping on their own (if you know what you are looking at) I have some extra large maps of the fire trail area.

If you find horses and riders anywhere except on the equestrian trail on the far side of the Ridge you are at liberty to tell them to go back where they belong!

All for now, Cheers,

Bess

PS Please remember we meet at Kathner Street Only at my house if wet.
